STAT

Deputy Director of Logistics

This is the letter I discussed with you by phone this morning. We certainly advocate cooperation on excess materials. It will make additional work, of course, for Log and every field station that might become involved. I feel, however, that before a final answer is made we should consider the security and cover factors and, generally, how the DD/P offices would feel about circulating lists of surplus materials [redacted]

STAT

Therefore, feel this should be referred to your office for policy consideration and, based on that, we can work out proper procedures and give [redacted] a final answer.
